

SuperSpray™

Swivel, Spray & Stream Aerators

All Brass Swivels, Controls & Connectors Made in the U.S.A.

Plastic Spray & Stream Body Made in Italy

Both standard male (15/16ths x 27) and female (55/64ths x 27) threads
Available in standard 2.2 GPM and water saving 1.8 GPM Flow Rates

Deluxe SuperSpray™ with water saving lever control

Provides a wider, more forceful spray that makes rinsing quick and easy, or an aerated stream that reduces splash and a full softer flow.

Lever control valve is made in USA of lead free brass, allows user to easily adjust flow rate from full flow 2.2 GPM to a softer water saving flow or a trickle to save between rinsing, makes that a great water saving product.

Lead Free Brass Swivel provides wider sink coverage.

Brass connector has both 15/16 x 27 male or 55/64 x 27 female threads, installs easily on most kitchen faucets.
